

Ceramic Tempering Furnace Roller

+90 542 293 19 01
Cumhuriyet Mah. Çalkaya Sok. No:9 Kat:3 D:6 Silivri/İstanbul - Türkiye

The Ceramic Tempering Furnace Roller delivers reliable and efficient performance in your glass processing lines. It supports production continuity by ensuring balanced operation, particularly in quenching (rapid cooling) zones. Standing out with its price-performance balance, this product is an ideal choice for those seeking both an economical and long-lasting solution.

TECHNICAL SPECIFICATIONS
